## SUMMARY

Passionate and detail-oriented computer science student with hands-on experience in front-end and full-stack web development. Proficient in HTML, CSS, JavaScript, React.js, PHP, and MySQL, with a strong foundation in problem-solving, teamwork and UI/UX principles. Dedicated to developing scalable, user-friendly, and high-performance web applications while continuously learning and improving.

## EDUCATION

### SZABIST

Bachelor of Science in Computer Science (BSCS) — CGPA: 3.78

Aug 2021 – June 2025

## WORK EXPERIENCE

### Frontend Developer (Intern) — SZABIST Incubation Program

June 2023 – Aug 2023

- Contributed to frontend development of Zabdesk project under SZABIST incubation initiative.
- Developed responsive web pages using HTML, CSS, Bootstrap, and JavaScript.
- Collaborated with the design team to implement UI components improving user experience.
- Enhanced website interactivity using event-driven JS.

### IT Intern — United Bank Limited (UBL)

June 2024 – July 2024

- Supported IT operations and digital banking interface optimization.
- Assisted IT department in system maintenance, UI/UX optimization, and troubleshooting.
- Supported deployment of new digital banking features and data management processes.
- Collaborated with customer service teams for feedback-based UI improvements.

## TECHNICAL SKILLS

**Languages:** HTML, CSS, JavaScript, PHP, C++, Java, Python

**Frameworks & Libraries:** React.js, Bootstrap

**Databases:** MySQL

**Tools:** GitHub, VS Code, XAMPP

**Other Skills:** Problem Solving, Teamwork, Communication, Creativity

## PROJECTS

### Online Car Rental System (C++)

- Built a console-based system to manage car rentals and track availability.
- Enabled users to view details, book cars, and manage rental history.

### Medical Store Management System (Java)

- Designed a GUI using Java Swing for managing medicines and sales.
- Added CRUD functionalities (add, edit, delete, search) and auto-generated receipts.

### Online Gifts Store (HTML, CSS, BOOTSTRAP, PHP, and MySQL)

- Developed a dynamic e-commerce site with user authentication and cart system.
- Used PHP for backend validation and MySQL for data storage.
- Created database using MySQL to store gift details and user information.

### Grocery Store (HTML, CSS, BOOTSTRAP, PHP, MySQL)

- Created a responsive web interface with an admin dashboard to manage stock and sales.
- Integrated features for cart management, billing, and product tracking.
